## **Introduction**

The general objective of the Drug Abuse Monitoring System (DAMS) is to establish a sound database for effective programme planning and monitoring. Specific objectives of the reporting system are as follows:

- To determine the incidence, prevalence and characteristics of drug users who reported to treatment and rehabilitation services.
- To monitor the trends and patterns of drug use.
- To determine and describe at risk groups in the population.
- To assess and evaluate the existing treatment and rehabilitation programmes.
- To be an ‘early warning system’ to effective programme implementation.

The Information given in this report is from the Government and Non-Governmental organizations in Island wide contain core items on:

## Abstract

The total number of reported drug users who had received treatment facilities in 2022 was 1936. Of the total reported drug users, 38% received treatments of National Dangerous Drugs Control Board (NDDCB) treatment and rehabilitation centers, 03% from prisons drug treatment rehabilitation programme, 16% from NGOs and 42% from Kandakadu Treatment and Rehabilitation Center of Bureau of Commissioner General of Rehabilitation (BCGR).

Prisoner diversion programme has been changed in 2011 due to the enactment for the drug dependents (treatment and rehabilitation), act No. 54, 2007 has implemented prison treatment and rehabilitation programme in Sri Lanka and an exclusive treatment programme have been designed for prisons for drug related offenders.

The majority of reported drug users had received institutional treatment facilities and among the treatment admissions, 25% were from Gampaha district. By considering the entire treatment admissions, 58% were from Western province.

According to the reported data, 1929 males and seven females were admitted for the treatments in 2022.

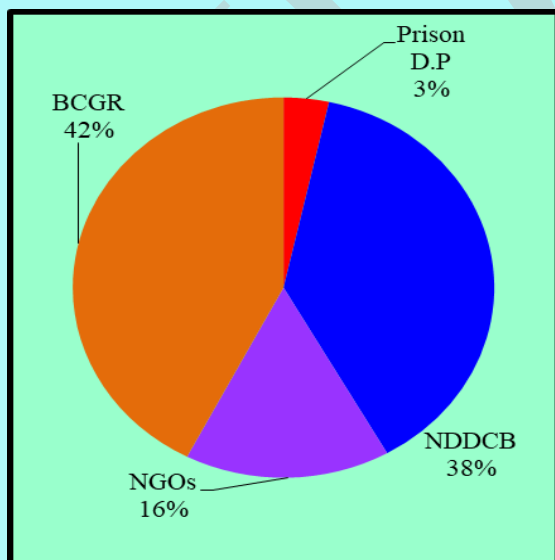

Among the total drug users 32% administrated drugs by smoking, 09% by eating or drink and 67% used Chinese method. It is also revealed that 1122 (58%) of drug users were single and 627 (32.4%) were married. Data further indicates that 602 (32%) of them have studied grade 5 to 10 and 881 (46%) persons completed O/L examination.

**Background**

This is an analytical report based on the Drug Abuse Monitoring System (DAMS) on persons treated in the drug treatment facilities in 2022 (January to December).

One thousand nine hundred thirty six (1936) drug dependents have been reported from drug treatment and rehabilitation centres in 2022. 740 (38%) persons were reported from the NDDCB, treatment centers 304 (16%) from NGOs, 67 (03%) from prison drug treatment programmes and 819 (42%) from Kandakadu treatment and rehabilitation Centre.

**Figure 01: Distribution of treatment admissions**

Source: Drug Abuse Monitoring System, 2022

NGOs sector had provided treatment services for 304 drug users and out of them, 83 persons received treatments from

“Andurin Alokaya”, 108 from “Nawajeewana” and 55 from “Pathuma Meeduma”, 43 from “Power House” and 09 from “Senehasa”.

**Type of Admission**

The distribution of admission types is shown in table 01 and it reveals that majority (982) was from Court referral. Voluntary admissions admissions were reported 779 persons.

**Table 01**

Type of Admission	Number of persons	Percentage (%)
Voluntary	779	40
Court referral	982	51
Other	104	05
<b>Total</b>	<b>1936</b>	<b>100.0</b>
