STATISTICAL REPORT ON DRUG RELATED ARRESTS IN SRI LANKA

DRUG ABUSE MONITORING SYSTEM VOLUME - 67

January - June 2024

National Dangerous Drugs Control Board No 383, Kotte Road, Rajagiriya

Introduction

The general objective of the Drug Abuse Monitoring System (DAMS) is to establish a sound database for effective programme planning and monitoring. Specific objectives of the Reporting System are as follows:

- To determine the incidence, prevalence and characteristics of drug users who come for treatment, reporting institutions or practitioners.
- To monitor the trends and patterns in drug use
- To determine and describe the at risk groups in the population
- To be an `early warning system' to permit early programme responses

The information given in this report is mostly from Police Stations Island wide and Police Narcotic Bureau.

The Instrument of the Reporting Form used for reporting on drug users contains core items on:

- a. Demographic characteristics
- b. Drugs used
- c. Route of use
- d. Gender
- e. Frequency of drug use
- f. Nature of offence
